# We Build the Intelligence That Powers Modern Industries

When intelligence meets infrastructure, possibilities become limitless.

AI-Powered ERP & CRM built to connect, automate, and elevate operations globally.

# Who We Are

We are Barawave — a global technology company that builds AI-powered ERP and CRM software to simplify and transform how businesses operate. Our solutions are designed to streamline complex processes in industries like oil & gas, marine equipment, manufacturing, and logistics.

We bring together artificial intelligence, automation, and secure cloud infrastructure to deliver a connected ecosystem that empowers companies to manage procurement, projects, clients, and operations more intelligently.

We proudly support over 10 million subscribers in Asia, Africa, the Americas, and beyond — helping businesses scale with confidence and clarity in a fast-changing world.

# Our Mission

To empower organizations with intelligent, connected systems that increase efficiency, reduce friction, and unlock growth."

We believe the future of enterprise software lies in adaptability, real-time insights, and seamless integration across departments and supply chains.

# Our Vision

## EMPOWERING GLOBAL PROGRESS WITH SMARTER SYSTEMS

---

We envision a world where intelligent systems work seamlessly across industries, continents, and teams — unlocking efficiency, transparency, and growth for every business.

We strive to be the trusted digital backbone behind the next generation of enterprises, empowering millions through innovation, integration, and insight.
